

**VaxServe, a sanofi pasteur company, is a national healthcare supplier.**

Since 1999, VaxServe has offered customers professional service while providing a reliable supply of vaccines, injectables and medical/surgical products at competitive prices.

We maintain a reputation as one of the nation's most reliable suppliers of influenza and other vaccines...even those in short supply. Additionally, we offer a broad range of vaccines from multiple manufacturers.

Our mission is to offer customers the benefits of purchasing from a distributor, as well as the advantage of a relationship with a world-leading vaccine manufacturer. And while we specialize in vaccines, we have now committed ourselves to providing more of what the healthcare industry needs everyday. We are partnering with world-class manufacturers to expand our product line with a select group of top quality products, including the medical, surgical and injectable products healthcare providers use most often.

With our new streamlined catalog, user-friendly website and knowledgeable staff, all backed by our proven reliability and commitment to on-time delivery, we will continue to meet our customers needs with the highest standards of quality and service.

### **Customer Services**

Our dedicated Vaccine Specialists make every effort to satisfy our customers' needs. Our goal is to help providers focus on practicing the highest quality in healthcare.
