

MEDPOINT express is great for treating minor health problems when a visit to a doctor isn't convenient. We are open seven days a week, and the care that we provide is affordable. There are no hidden fees, and the cost for each service is listed on the menu in the front of each clinic.

A visit to *MEDPOINT express* is quick. No appointment is needed, and most visits take about 15 minutes. Care is provided by a Family Nurse Practitioner who can diagnose and treat most common illnesses, and can also prescribe appropriate medications. Prescriptions can be filled at any pharmacy.
